DR. GOODLUCK EBELE JONATHAN, GCFR PRESIDENT, COMMANDER-IN-CHIEF OF THE ARMED FORCES OF THE FEDERAL REPUBLIC OF NIGERIA

CHIEF PIUS ANYIM PIUS, GCON SECRETARY TO GOVERNMENT OF THE FEDERATION NIGERIA

FRSC GOVERNING BOARD FEDERAL ROAD SAFETY CORPS, NIGERIA

MEMBERS OF THE FRSC BOARD

THE FRSC BOARD

In accordance with Section 1(1) of the FRSC (Establishment) Act 2007, the Commission as a body corporate with perpetual succession and a common seal, and may sue and be sued in its corporate name and whose members shall exercise the functions as specified in the Act.

The Commission is composed of a Chairman and five other persons to be appointed by the President on part-time basis and the Corps Marshal who shall be the Chief Executive Officer of the Corps by virtue of Section 1(2)(a) and (b) of the Act. Presently, the Commission is composed as follows:-

i. Mr. Felix Chukwu	-Chairman
ii. Jackie Umoru	-Member
iii. Alhaji (Dr) Ahmadu Inuwa Gambo	-Member
iv. Mrs. Maryam Gwaram	-Member
v. Mallam Aminu Bello	-Member
vi. Sen. Dahiru Bako Gassol	-Member
vii. Hon. Emmanuel Egwe	-Member
viii. Hon. Yinka Taiwo	-Member

The only ex-officio member is the Corps Marshal and Chief Executive, FRSC, Osita Benjamin Chidoka OFR.

Responsibilities of the Commission as stipulated in Section 3(a) and (b) of the Act include:

- a. Policy making;
- b. Appointment of suitable persons as Officers, that is from Assistant Route Commander (ARC) to Deputy Corps Marshal (DCM).

OSITA CHIDOKA, OFR CORPS MARSHAL & CHIEF EXECUTIVE FEDERAL ROAD SAFETY CORPS. NIGERIA.

1---12

FOREWORD

In line with quality management principles, the Federal Road Safety Corps, backed with clearly defined objectives and well set goals plainly kept faith with a dedicated workforce to assiduously pursue the road safety business.

With a gritty zeal to translate this vision and strategies into action within the year in review, a more combative force was employed to control outflow while tenaciously managing the inflow. In the process, policies were strategically reshaped with the use of statistical analysis, appraisal, evaluation, modeling and research to keep up with modern trends.

The journey in 2013 was highly powered on a very fast train. As tedious as it was, there was no stopping this train that resulted in further expansion of our operational base and acquisition of high-tech equipment through the huge support from partners and stakeholders, especially the World Bank.

In an attempt to further make the enforcement process more efficient, the Corps took cue from countries like United Kingdom which has the one of the best road safety records in the world to ensure legislation is in place through the launch of the NRSS.

The year was lightened with the huge accolade that followed the 25th Anniversary of the Corps and the official relocation to the headquarters complex. This was further crowned with the rewarding ISO certification of FRSC.

As we ponder on our deeds or misdeeds in delivering on our mandate, the gratification rests in the priceless value of that soul that is barred from road deaths due to the efforts.

While we affirm an unflinching dedication to the road safety management in the coming year, we employ everyone to come on board our 'dream train' to a safer motoring environment in Nigeria.

Thank you

OSITA CHIDOKA OFR

PREVIEW

The voyage for FRSC in 2013 was propelled by faith on its dedication to a staunchly pursued course of ensuring its goals are actualized. Comparatively, the gain far outweighed the deficits in the various interventions employed to effectively manage road safety in the nation and the sub-region at large.

Diversifying to a thematic approach of rendition in a bid to efficiently cover the various efforts employed by the Corps at maximizing output, the Annual Report systematically records all notable activity within the year in review with accurate pictorials and graphical presentation.

Bent on achieving an effective institutional framework by professionally positioning the Corps to deliver optimally, the globally acceptable IT platform was employed to train and assess staff for promotion. This stems from Management's belief that when the safety authority is fully operationalized and resourced with the right expertise, it will produce desired outcome. As an addition to a moral commitment in firmly enforcing regulations and improving safety administration, more fleet operators where certified under the Road Transport Standardization Scheme and the Emergency line 122 was launched to enhance post crash care responses.

Further to its managerial strategies, a sustained donor, private sector and NGO goodwill and assistance for road safety campaign was maintained. Prominent among the collaborative efforts is the World Bank intervention programmes that resulted in the acquisition of high-tech equipments to meet operational needs. Also assisted capacity building was accessed for the workforce in the process.

Identifying the need to go beyond changing attitudes and behavior through persuasion and enforcement to entrenching safety principles to the upcoming generation, FRSC launched the teaching of Road Safety tips in collaboration with Total Plc in Primary and Junior Secondary Schools nationwide.

Disposed to enhancing data analysis as a veritable tool for management, the Corps displays various tables, charts and graphs that adequately analysis its operational activities. These scientific assessment is reflected on the comparative analysis of RTC on state to state basis factored on severity index and also on the well designed score card rating and performance assessment of commands and offices to enhance job performance of its workforce.

It was no doubt an activity filled year with the huge accolades that went with the International Conference on Road Safety organized to mark the 25th Anniversary of the Corps where over a thousand participants gathered to listen to paper presentation from seasoned road safety experts from various part of the globe. Also the Annual World Remembrance Day for RTC and Africa Road Safety Day was duly observed. The UN Global Road Week, Bicycle week and the Movement of the FRSC Headquarters were jointly marked with pageantry.

The year came with huge rewards of various special recognitions due to the administrative resilience of the Corps Marshal and Chief Executive. Topping the cap however was the ISO 9001 Certification of the Corps that made it the first ever Law Enforcement Agency to be so certified.

Satisfied but not willing to relent, the Federal Road Safety Corps promises to build on the itemized feats in ensuring a standardized safety culture is entrenched in the nation.

KAYODE OLAGUNJU (Ph.D) Assistant Corps Marshal, Head; Policy, Research and Statistics Department.

A BRIEF ON THE NEW DRIVERS LICENSE AND VEHICLE NUMBER PLATE

Official launch of the New Drivers License by President Goodluck Ebele Jonathan GCFR.

Corps Marshal of FRSC and President Goodluck Ebele Jonathan GCFR on a tour of facilities at the FRSC headquarters during the President's visit.

WHY THE NEW SCHEME?

The new scheme was introduced to check abuse of the old number plates, create a reliable database, boost national security and eliminate revenue loses.

The new scheme commenced on the 2nd September, 2011 and was commissioned by The President and Commander in-Chief of The Federal Republic of Nigeria Dr. Goodluck Ebele Jonathan.

COMPONENTS OF THE NEW SCHEME

The components of the new scheme are: National Vehicle Identification system which consists of the reflective number plate and other sub-component like:

- a. Vehicle Identification Tag (VIT) : a nontransferable sticker pasted on the windscreen and bearing the same number as the Number plate. It is used to deter exchange of Number plates from one vehicle to the other.
- b. Proof of Ownership Certificate (POC) : Issued as the ultimate proof of ownership. It is generated from central data bank submitted at the point of registering a vehicle on Form MVA 01.
- c. Cost of the Number Plate: the cost of obtaining the number plates vary; depending on the type e.g. Standard, out of Series or Fancy. It also depends on the capacity and usage of the vehicle (Private, Commercial, Articulated, etc). It is however the responsibility of the Joint Tax Board to determine the cost. Below are the approved cost by the JTB:

Staff of FRSC operating one of the Vehicle Number Plate machines in the Plant

A set of Hi-Tech solution for bio-metrics on the New Drivers License in Nigeria

New Number Plates produced and ready for dispatch from one of the Plants

CERTIFICATION AND PROSECUTION OF NON- COMPLIANT FLEET OPERATORS

Road Transport Safety Standardization Scheme (RTSSS) created by law in the National Road Traffic Regulations (NRTR) (2004) Section 115 made pursuant to Sections 5 and 10 (10) of the FRSC (Establishment) Act 2007 provides for the establishment of safety units by all transport operators so as to bring professionalism into the industry, promote and develop rapid, safe, efficient and convenient fleet transportation system in the country.

It is this wholesome consideration and in keeping with the Commission's service compact with all Nigerians (SERVICOM), that the Federal Road Safety Commission introduced the Road Transport Safety Standardization Scheme (RTSSS).

The Road Transport Safety Standardization Scheme (RTSSS) is classified into 7 (seven) broad areas as follows:

- i Compilation and Registration of fleet operators.
- ii Certification of transport operators.
- iii Improving quality of driver's training.

iv Collaborative efforts among law makers, law enforcement agencies and transport operators.

- v Continuous inspection of Fleet Operators / activities.
- vi Enforcement of Model Safety Policy for Fleet Operators and
- vii Evaluation and Reporting.

In 2013, the Corps through the Corps Transport Standardization Office (CTSO) conducted certification of transport operators and non-conforming fleet operators were prosecuted in line with the provision of the law.

A senior FRSC official inspects a vehicle belonging to one of the major fleet operators in Nigeria and checks for compliance of requirements under the RTSSS.

PROSECUTION OF NON-COMPLIANT FLEET OPERATORS

UN DECADE OF ACTION: 2013 ACTIONS

By 2015 road crashes are predicted by the WHO to be the leading cause of premature death and disability for children aged five and above. Hopefully by 2015 much progress will have been made in reaching the Millennium Development Goals but this achievement will be cruelly overshadowed if the largely avoidable slaughter of the young on the world's roads continues unchecked.

PREDICTED ROAD TRAFFIC FATALITIES BY REGION (IN THOUSANDS), ADJUSTED FOR UNDERREPORT-ING, 1990-2020

Region	Number of countries	1990	2000	2010	2020	Change (%) 2000- 2020	Fatality rate 100 000 pe

Source: World Report on road traffic injury prevention, 2004

This epidemic on wheels - which already kills on the scale of malaria - will continue to rob even more families of their loved ones and their livelihood, as the number of those killed doubles to well over two million per year by 2030.

In Nigeria, the campaign for the realization of the goal of the United Decade of Action for Road Safety (2011-2020) continued in year 2013 as every action in every year is an important step towards the vision. It is strongly believed that with much government support and massive political will, the first pillar of the UN Decade of Action will be easy to achieve.

Notable government representatives and high profile individuals in the society gave credence to the UN Decade of Action course by visiting the Federal Road Safety Corps (FRSC) national headquarters and signing the "I am committed to the Decade of Action for Road Safety" document. Below is a comprehensive list of signatories to the UN Decade of Action on Road Safety in the year 2013.

S/No.	NAME	APPOINTMENT/ORGANIZATION	DATE OF VISIT
1	Nuhu Ribadu	Former Chairman, Economic and Financial	21 February,2013
		Crimes Commission (EFCC), Nigeria	
2	Maj. Gen. OT Ethan	Commander, Army Headquarters Garrison	7 March,2013
3	Olusegun Obasanjo	Former President, Federal Republic of Nigeria.	8 March,2013

Joseph Yobo identifies with the United Nations Decade of Action for Road Safety:2011-2020.

FRSC CALL CENTRE, 122 AND POST CRASH CARE IN NIGERIA

The United Nations Decade of Action for Road Safety 2011-2020 outlined five (5) Pillars to provide a concrete platform to put in place measures that will significantly bring down incidence of deaths as a result of road crash. One of such pillars is Pillar 5- Post Crash Care/Response. Nigeria, through FRSC strategically approached Pillar 5 bi-directionally. First, established an Emergency Call Centre with a Nation-wide coverage. Second, established Rapid Emergency Responders popularly called 'Zebras" which arrives the scene of crashes as reported to and relayed by the Call Centre at the National Headquarters of FRSC.

In order to enhance the response of FRSC Rescue activities, a toll free emergency number '122' was launched by the Corps. The introduction of the Emergency toll free line is to aid rapid response to road traffic crashes and to reduce the degree of severity as a result of the crash.

The 3-digit number is also to help the public report bad use of the road and road conditions. The launching was performed by the Honourable Minister of Health; Prof. Onyebuchi Chukwu on Monday 9th July, 2012 at the FRSC National Headquarters, Abuja. Ever since the launch of 122, the public perception of the scheme has been encouraging although awareness creation is on-going to ensure its full utilization by all citizens.

Staff of FRSC on duty at the Call Centre of FRSC with readiness to respond to Emergency Calls on 122 nationwide

122 CALL RECORDS IN 2013

Thousands of calls were made to FRSC through the Call Centre in 2013 and they are categorised as follows:.

TRAINING, CONFERENCES, SEMINARS AND KEY STRATEGIC SESSIONS

FRSC believes in inculcating road safety ideals and principles in young people. This is anchored on the fact that road user behavioural modification is easier to achieve in children and pupils within the primary and junior secondary school bracket.

Road Safety education is already been taught in primary and secondary schools in Nigeria as approved by the Federal Ministry of Education. There is need however, to encourage and support the idea. To achieve the overall objective of having majority of young people (if not all) learn road safety requires collaboration.

An Officer of FRSC educating pupils of primary school on basic road safety skills as well as road signs and symbols.

Pupils of Primary School in Nigeria being taught road safety practise.

It is in this direction that Total Nigeria Plc in collaboration with Federal Road Safety Corps commenced teaching of road safety tips in primary and junior secondary schools in Nigeria.

The Corps is strongly convinced that sustaining this kind of partnership will help shape road user behaviour and entrench a culture of Safer Road User is outlined in Pillar 4 of the UN Decade of Action for Road Safety, 2011-2020.

TRAINING, CONFERENCES, SEMINARS AND KEY STRATEGIC SESSIONS

To ensure that road safety practice in Nigeria is at par with global best practices, both local and international training exposures are given to staff to meet some of the Corps training needs.

FRSC attended the Annual Transport Research Board (TRB) Meeting in Washington DC, USA in January. Also, Senior Officers were sponsored to attend the International Association of Chiefs of Police conference in California, USA as well as the Prevention Routiere Internationale (PRI) annual meeting in Lisbon, Portugal.

The Corps also participated in the West African Road Safety Organization (WARSO) regional meetings and couple of key strategic sessions/training for Rescue Officers nation-wide.

A cross section of participants at the International Association of Chiefs of Police (ICAP) conference held in USA.

A strategic training session for Rescue Officers nationwide held at the Conference room at the FRSC HQ, Abuja.

In May however, the Corps in collaboration with the World Bank sent 35 Officers to the APTH training School in Le Cruesot, France for specialized training on safe handling/transportation of petroleum products on the roads from supply port to delivery destination.

The five (5) days theoretical and practical lessons at the APTH offered every member of the 35 members FRSC team a wide range of precautionary and preventive road safety experience that places them on a competitive edge on global best practice in road safety administration and management.

The lessons learnt include;

- a. Knowledge of safe transportation of Dangerous goods and identification of labels on vehicles conveying hydrocarbons.
- b. Knowledge and operations of the different types of braking and gear systems found in different trucks, tractors and trailers.
- c. Importance and the safe application of the variables of centripetal forces during driving such as radius of road and vehicle speeds.
- d. Knowledge of the four classes of fire (A,B,C &D), their various sources and effective preventive skills as well as appropriate extinguishing methods.
- e. Knowledge of the minimum and maximum explosive limits of hydrocarbons and practical determination of the direction of flow of hydrocarbon vapours contrary to general belief and demonstration to show that vapours of hydrocarbons are three (3) times heavier than air.
- f. Defensive driving skills under rainy, wet roads conditions and tyre burst circumstances at different vehicle speeds.
- g. Theoretical and practical determination of thinking distance, braking distance, reaction time and overall stopping distance.
- h. Knowledge of European Union conventions as contained in the 'Agreement for Dangerous Road' (ADR), their signs and symbols.
- i. Practical demonstration of vehicle 'roll-over'
- j. Conduct of the checklist procedure to be carried out during loading and discharge of Petroleum products.
- k. The importance of BLEVE and the allowable space between the content and container (85% to 15%) in the transport of LPG products.
- An overview of road signs, symbols and inter-modal transport system in Le Cresuot, Lyon and Paris.

TRAINING, CONFERENCES, SEMINARS AND KEY STRATEGIC SESSIONS

ENHANCING THE ICT CAPACITY OF THE CORPS MANPOWER

In order to objectively and strategically reposition the Corps to effectively utilize prevalent Information and Communications Technology facilities in modern Road Safety Administration, The Corps' manpower received a boost as a significant percentage of the Corps workforce nation-wide especially the Senior Officers Cadre were enrolled in batches for specialized computer training at the Digital Bridge Institute, Abuja-Nigeria to comprehensively undertake practically courses under the European/International Computer Drivers License (ECDL/ICDL) requirements.

All Participants mandatorily completed both the theoretical and practical courses in the programme. It is strongly hoped that the knowledge gained by Staff will translate to efficiency at work place.

A cross section of Senior Officers during their participation in the ECDL/ICDL programme at the Digital Bridge Institute, Abuja-Nigeria.

PROMOTIONS & CAREER DEVELOPMENT

The Corps' vision of enhancing work force productivity and achieve job satisfaction was boosted by the conduct of promotion exams for all categories of Staff.

Staff of the rank of Deputy Route Commander (DRC) to Assistant Corps Marshal (ACM) participated in the Officers' cadre exams.

Promotion exams for the Marshals cadre were also conducted following strictly the guidelines set by Management Promotion Board (MPB). All officers also participated in the online exams after the mandatory two weeks promotion course at the FRSC Academy. Only Senior Officers of the rank of DCC and Above were exempted from the two weeks course.

Candidates who emerged successful were duly communicated and decorated with their new ranks.

ON-LINE PROMOTION EXAMINATIONS

The application of Information and Communication Technology (ICT) is fast gaining ground in Public Service in Nigeria especially in Federal Road Safety Corps (FRSC). Virtually none of the Corps process can be executed without the involvement of one ICT infrastructure or the other.

The 2013 Officers promotion examinations were conducted online with facilities provided by the Corps at its National Headquarters, Abuja.

Officers from the rank of Chief Route Commander (CRC) to Deputy Route Commander (DRC) under took a mandatory two (2) weeks preexams course at the FRSC Academy in Jos, Plateau State before taking the online exams in Abuja. Senior Officer sat for the online exams without undergoing any course.

The online exam conducted in year 2013 was the first of its kind in the history of FRSC 25 years ago.

INTER-AGENCY CO-OPERATAION

Road Safety is a multi-facet and multi-sectorial engagement that requires the active involvement of all stakeholders.

Tremendous progress has been recorded by the Corps in the area of partnership as the Nigerian Road Safety Partnership (NRSP) set up a couple of years ago has been doing well.

Commandant, Nigeria Defence Academy, Major Gen. Emeka Onwuamaegbu and his team during a courtesy visit to the FRSC Headquarters.

In 2013, the Nigeria Defence Academy (NDA) showed good faith in the FRSC by establishing partnership and working relationship. This culminated in establishing a road safety unit in the Academy where students of NDA would be taught professionalized driving skills and ethics.

The programme was first initiated by the visit of a team of NDA leadership to FRSC Headquarters led by the Commandant, Nigeria Defence Academy. FRSC reciprocated this good gesture and established the safety and training unit in the NDA.

The Corps Marshal, Osita Chidoka OFR reviewing a Quarter Guard mounted for his reception during a courtesy visit to the NDA.

The Commandant, NDA and his Management Team welcoming the Corps Marshal of FRSC to NDA during his official visit to the Institution.

Assistant Corps Marshal Vincent Nwokolo, fdc in a pre-arial road surveillance during Operation Zero tolerance. This underscore the collaboration that exists between the FRSC and Nigerian Air Force.

FREE VEHICLE SAFETY CHECKS

INTRODUCTION

Pillar 3 of the UN Decade of Action for Road Safety provides a framework for ensuring safer vehicles on the roads. The road crash tripod has vehicle as one of its major component. To ensure safer roads in Nigeria, FRSC conducts Free Vehicle Safety Check aimed at identifying vehicle anomalies that can aid a crash. Using a well-documented checklist, the attention of vehicle owners are drawn to the observations and are advised to effect remedies. The exercise is usually non-punitive but corrective and is conducted every quarter in the year.

Free Vehicles Safety Checks commenced in 2009. The programme was initiated for implementation nationwide due to observed prevalence of mechanical deficient and rickety vehicles on Nigeria roads.

Free Vehicles Safety Checks is a quarterly programme whereby the last Saturdays and Sundays were set aside for vehicles to be checked for deficiencies or inadequacies, either mechanical or in essential vehicle tools. Operatives stop vehicles, informed the operators on their intention seeking for their cooperation. The checks are voluntary on the part of vehicle operators and fines are not applicable in event of discovery of faults. The exercise is advisory for which a copy of the check-list is handed over to the vehicle operator to enable him note and be reminded of the defects he/she needs to put right in the vehicle.

This report contains the checks outcome for 2013 as well as comparative 2009-2013. This later aspect under scores the performance of the programme from inception.

The data presented as well as the interpretation are descriptive of work done by the Commands over the years, and by extension, the Corps efforts at ensuring reduced crashes on Nigeria highways.

OBS	ERVATIONS
1	Yobe and Borno - consistent decline over the years
2	Abia and Ebonyi - Lowest in 2013
3	Enugu - not taking the exercise seriously.
4	Ekiti and bayelsa - consistent poor performance over past 3 years
5	C/River - Lowset in 2013 since inception in 2009
6	Anambra - best in 2013 than in past 3 years
7	Delta inproved slightly over 2012 but quite lower than inception (2009)
8	Kaduna and Katsina performed poorly & quite below maiden performance
9	Jigawa - performance was quite low in the past 4 yrs but 2013 was best
	past 4 years
10	Katsina - the lowest in 2013 since inception.
11	Lagos - Had the best performance in 4 years

ASSESSMENT REPORT OF RSHQ DEPARTMENTS AND CORPS OFFICES (JAN-DEC 2013)

The evaluation of performance of Departments and Corps Offices at the RSHQ, is based on the

following as highlighted below;

- ✤ EVALUATION CRITERIA
- ✤ 1ST QUARTER (JAN MAR 2013) ASSESSMENT OF RSHQ DEPTS/COS
- ✤ 2ND QUARTER (APR JUN 2013) ASSESSMENT OF RSHQ DEPTS/COS
- ✤ 3RD QUARTER (JUL SEPT 2013) ASSESSMENT OF RSHQ DEPTS/COS
- ✤ 4TH QUARTER (OCT DEC 2013) ASSESSMENT OF RSHQ DEPTS/COS
- SUMMARY OF JAN DEC 2013 ASSESSMENT OF DEPTS/COS
- ✤ COMPARISON OF HALF YEAR JAN JUN 2012 PERFORMANCE AGAINST JAN- JUN

2013 PERFORMANCE OF DEPTS/COS

✤ COMPARISON OF HALF YEAR -JUL - DEC 2013 PERFORMANCE AGAINST JUL- DEC

2012 PERFORMANCE OF DEPTS/COS

✤ COMPARISON OF JAN - DEC 2013 PERFORMANCE AGAINST JAN- DEC 2012

PERFORMANCE OF DEPTS/COS

- ✤ GENERAL OBSERVATIONS MADE IN THE COURSE OF THE ASSESSMENTS
- ✤ RECOMMENDATION FOR IMPROVED PERFORMANCE

S/N	DESCRIPTION	SCORE

GENERAL OBSERVATIONS

★ THERE WAS AN IMPROVEMENT IN THE COMMITMENT OF HEADS OF DEPARTMENTS, CORPS OFFICES TO EXCEL. THIS MAY BE IN VIEW OF COMACE GUIDANCE FOR IMPROVEMENT TO THOSE WHO FALL BELOW 50% IN THE 3RD QUARTER AND 60% IN THE 4TH QUARTER ASSESSMENT RESPECTIVELY.

THERE STILL SEEM TO BE LACK OF IN-DEPTH UNDERSTANDING OF THE ASSESSMENT CRITERIA ON THE PART OF THE OFFICERS MANDATED TO ENSURE COMPLIANCE HENCE, NEED FOR INCREASED CLOSE SUPERVISION.

- RELUCTANCE OF DEPTS/COs TO REPORT AND PROPERLY ACCOUNT FOR FUNDS RELEASED TO THEM FOR VARIOUS PROJECTS.
- LACK OF CONDUCIVE WORKING ENVIRONMENT AND ADEQUATE TOOLS IN SOME OFFICES.

SPECIFIC INFERENCE FROM STATISTICAL DATA:

✤ PERFORMANCE ANALYSIS FOR 3RD QUARTER 2013 ASSESSMENT IS SHOWN BELOW:-

•	AVERAGE PERFORMANCE FOR 1st QTR 2013	-	50.02%
•	AVERAGE PERFORMANCE FOR 2 nd QTR 2013	-	70.32%
•	AVERAGE PERFORMANCE FOR 3RD QTR 2013	-	72.2%
•	AVERAGE PERFORMANCE FOR 4 th QTR 2013	-	76.08%
	TOTAL AVERAGE PERFORMANCE FOR 2013	-	67.15%

◆. THERE WAS A GENERAL PERFORMANCE IMPROVEMENT OF 3.9% IN 4th QUARTER
2013 (76.08%) AS AGAINST 3rd QUARTER 2013 (72.2%) PERFORMANCE.

✤ A PERFORMANCE IMPROVEMENT OF 7.9% IN 2013 (67.15%) OVER THE CORRESPONDING PERIOD IN 2012 (59.25%) WAS RECORDED.

FIELD COMMANDS RATING

ZONAL COMMANDS ASSESSMENT, 4Q 2013

INTRODUCTION

1.0 The Fourth Quarter Assessment of Zonal Commands concluded the year 2013 performance assessment cycle. Field performance in the 4Q was generally poor as most Commands declined in performance. Like in the earlier evaluations, the 4Q 13 assessment, in line with the Department's initiatives, kept in view Corps strategic goals one of which was to empower Field Commands for better performance. The need for Commands in security challenged areas to channel more efforts into other areas than enforcement, was also considered.

ASSESSMENT CRITERIA

2.0 Performance rating was, as usual, based on the six (6) weighted criteria, viz:

а.	Report Rendition	-	20%
b.	Planning and Monitoring	-	30%
С.	Alignment to Service Standards	-	10%
d.	Capacity Building	-	15%
e.	Collaboration and Team Work	-	15%
f.	Financial and Resource Management	-	<u>10%</u>
	Total	=	<u>100%</u>

REPORT RENDITION, 20 MARKS

a. Timely rendition of requisite reports was considered. Five (5) marks each were allocated to three (3) of the expected reports, namely:

- i. Weekly SITREPs
- ii. Monthly Reports and
- iii. Special Patrol

The Special patrol report was allotted additional 5 marks (making a total of 10 marks) as it formed the hinge on which Commands were empowered to increase their performance/activities in relation to improved service delivery.

PLANNING AND MONITORING, 30 MARKS

b. In the 4Q assessment, performance of field Commands' basic schedules was judged on this criterion. A work sample of three (3) items was taken for this purpose:

- i. Operation Eagleye Arrests
- ii. Offenders/Offences and
- iii. Free Vehicle Safety Checks

Average performances were taken based on number of component Commands

ALIGNMENT TO SERVICE STANDARDS, 10 MARKS

c. Performance on this criterion was rated on the basis of field Commitments to durbar and public enlightenment campaigns/ rallies. 5 marks were allotted to each of the two activity areas.

CAPACITY BUILDING, 15 MARKS

d. Diligence in this area was adjudged from data relating to number of in-house lectures held and home grown efforts by way of seminars, workshops, and Zonal Command retreats and trainings. 10 marks were awarded to in-house performance while the Zonal retreats and works efforts attracted five (5) marks.

COLLABORATION AND TEAM WORK, 15 MARKS

e. The importance of internal and external synergy to FRSC's service delivery was recognized under this heading. Commands' efforts were measured by a sample consisting:

- i. Number of courtesy visits exchanged with Sister Agencies and Stakeholders
- ii. Commands meetings which included Zonal, Sector and Unit Commands meetings.
- iii. Collaborative actions with stakeholders

FINANCIAL AND RESOURCE MANAGEMENT, 10 MARKS

f. The ability of Commands to source for resources beyond the allocation and apply same to improvement in facilities and service delivery was measured by this criterion. As in earlier assessments, only projects worth N10,000.00 (ten thousand naira) qualified for consideration. Incidentally not much was recorded in the 4Q 2013 assessment.

3.0 PERFORMANCE OUTCOME REPORTS RENDITION

b.

3.1 The results are shown in table 1 and the corresponding chart. The following highlights are deduced:

a. The top three Commands are:

	1		
i.	Zone RS5 Benin	-	18.5 marks
ii.	Zone RS2 Lagos	-	10 marks
iii.	Zone RS7 Abuja	-	9.8 marks
	· ·		
The t	pottom three Commands	s are:	
i.	Zone RS1 Kaduna	-	7.5 marks
ii.	Zone RS10 Sokoto	-	7.1 marks

iii. Zone RS3 Yola - 6.8 marks

c. Consideration of the actual marks scored shows an overall decline in performance on the criterion. The least Command recorded performance of 6.8/20 (34%) while the performance of one of the top three, Zone RS7 Abuja, 9.8/20 (49%) is less than the 50% bench mark.

ZONAL PERFORMANCES ON REPORT RENDITION

WORLD BANK INTERVENTIONS

The World Bank support for FRSC activities continued in the year and monitoring measures towards trending road crash and fatalities on the safe corridor project was sustained.

The acquisition of six Peugeot Expert tepee single stretcher ambulances, communication equipment, radar guns and 24 Yamaha XJ900P power bikes by the World Bank for FRSC use was a significant milestone towards improving safety level along selected safe road corridors.

The project was a collaboration between the Federal Government and the World Bank under the Federal Roads Development Project and represents the way forward for all critical infrastructures.

Towards the last quarter of the year, the World Bank infused four(4) 70-tonnes Heavy duty tow trucks to boost the operational logistics of the Corps.

Brand new Patrol Vehicles, Ambulances and Motor Bikes donated by the World Bank in collaboration with the Federal Government of Nigeria to FRSC.

Official commissioning of Brand New 70-tonnes Heavy Duty Tow Truck by the Hon. Minister of Works

25TH ANNIVERSARY

The Federal Road Safety Corps (FRSC), Nigeria celebrated its milestone achievements in two and half decades of its existence and organized an International Conference on Road Safety to mark its Silver Jubilee with the theme" Road Safety in Africa - the next 25 Years".

The event which held at the Transcorp Hilton Hotel Abuja, Nigeria on 18th February 2013 brought together Road Safety Experts from within and outside the country including top government functionaries, Military and Para-Military Agencies, Non-Governmental Organizations, Stakeholders and Individuals.

The programme used the platform created to educate the public especially the participants on the current road safety situation in Nigeria as well as efforts and strategies adopted by FRSC towards curbing road carnage and associated consequences in the past two decades.

Considering the international dimension of the programme and taking into account the global influence of road safety, seasoned Road Safety Experts from around the world were invited to make presentations and share knowledge and wealth of experiences. Those who graced the occasion among invited foreign delegates include; Joop Goos, PRI President -Netherlands, Lori Mooren of ARRB-Australia, Dr. Kit Michell of RAC Foundation-London (UK), and Tawia Addo-Ashong of GRSF Transport, Water and ICT Department, World Bank- Washington DC among many others.

Inspector General of Police MD Abubakar, Representative of Chief of Army Staff, Air Staff and Naval Staff at the 25th Anniversary event of FRSC at Transcorp Hilton, Abuja.

President of Road Safety Wives Association (ROSOWA) , Barr. Chidinma Chidoka (right) and Mrs. May Obiri Yeboah of National Road Safety Commission of Ghana at the 25th Anniversary event of FRSC at Transcorp Hilton, Abuja.

A total of 1,008 persons registered and attended the programme which was declared open by His Excellency President of the Federal Republic of Nigeria represented by the Secretary to Government of the Federation Senator. Pius Anyim Pius.

To harness and explore the best of the conference, five break-away sessions were organized with each session addressing one of the pillars of the UN Decade of Action for Road Safety (2011 - 2020) with deep discussions to adopt stakeholders strategies for managing road safety in Africa as follows:

PILLAR ONE [Road Safety Management]

- a. Exploring the Lead Agency concept in road safety management.
- b. Peer review and annual assessment of the involvement of regional governments in fostering community road safety.
- c. Improving road safety strategy in Africa.

PILLAR TWO [Safer Roads and Mobility]

- a. Bus rapid transit development in developing economies.
- b. Impact of climate change on road transportation system in Africa.
- c. Best practices in funding and development.

PILLAR THREE [Safer Vehicles]

- a. Integrating National bicycle policy in promoting safer road transportation in emerging economies.
- b. Advances in vehicle safety devices.
- c. Standardizing vehicle type and usage in Africa.

PILLAR FOUR [Safer Road Users]

- a. Road safety and exposed road users.
- b. Improving road safety enforcement through road safety volunteerism.
- c. Regulating distracted driving (drunk driving, use of phones, etc).

PILLAR FIVE [Post Crash Response]

- a. Mainstreaming disability into safe road use.
- b.(1) Emergency response planning for road traffic agencies.
 - (2) Emergency services for improving safety in Africa.
- c. (1) Road transportation safety and post crash management.
 - (2) The importance of crash investigation in road safety and traffic administration.

A legislative dialogue session during the 25th anniversary programme of FRSC at the Transcorp Hilton, Abuja.

AFRICA ROAD SAFETY DAY

The Africa Road Safety Day and World Day of Remembrance of Road Traffic Crash Victims is the consequence of the Africa Union Executive Council Decision EX./CL/DEC.682 (XX) of January, 2012 and the United Nations Resolution A/60/5 of 26 October, 2005 which set aside and recognized the 3rd Sunday of November annually as Africa Road Safety Day and World Day of Remembrance of Road Traffic Crash Victims which seek to identify with the Victims of Road Crashes and their families to draw public attention through Road Safety Rallies and other events on the dangers associated with road traffic and therefore solicit the need to embrace best practice.

The 2013 Africa Road Safety Day and World Day of Remembrance of Road Traffic Crash Victims with the theme "Lets Have Roads That Are Safe for All" was held as a five (5) day programme of events between Thursday 14th Monday to 18th November, 2013.

FRSC Staff displaying the banner conveying the message for the World Day of Remembrance

On Thursday, 14th of November, 2013 was COMACE Press Briefing at COMACE Conference Hall FRSC Headquarter by 1000hrs. It was followed by the Ceremonial release of Balloons by COMACE and solemn Music by FRSC Band at basement of FRSC, Wuse Zone 3 at 1100hrs.

There was a commemorative Service at the National Mosque on Friday 15th of November, 2013 at 1300hrs. CC, SA Zaki (Corps Provost) led the FRSC Muslim faithful with benefits of obedience to traffic rules and regulations forming part of the Juma'at admonition and Prayers offered for the dependant relatives of the Crash Victims.

Saturday 16th of November, 2013 was marked with three Programmes, one was the Executive Walk which commenced from Federal Road Safety Corps Headquarters to Government Secondary School, Tudun Wada by 0630hrs. In attendance were the Honourable Minister of Health, Professor Onyebuchi Chukwu, who was the Special Guest of Honour, the Board Chairman FRSC, Mr Felix Chukwuma, Representative of Chief of Army Staff Col. GA Ugwuese, Representative of Guard Brigade Col. YT Usman, National Coordinator UN Decade of Action on Road Safety and Traffic Injury Prevention in Nigeria, Dr Sydney Ibeanusi and fifty school children, ten each from the following primary and secondary schools;

- i. Samuel Bill International School, Utako Abuja
- ii. Solid Rock Academy Kubwa, Abuja
- iii. Golden Good Shepherd International School, Kubwa Abuja
- iv. Government Secondary School, Wuse Zone 3, Abuja
- v. Government Secondary School, Karumo, Abuja.

About nine hundred persons including officers and marshals turned out for the walk which was combined with COMACE monthly walking jogging.

UN GLOBAL ROAD SAFETY WEEK

World Day of Remembrance for Road Traffic Victims Statement of the Chair of the UN Road Safety Collaboration Dr. Etienne Krug 17 November 2013

In the weeks leading up to this World Day of Remembrance for Road Traffic Victims, not a day has gone by without us hearing disturbing news of lives shattered by road traffic crashes: from major bus crashes in Kenya, Nepal and Peru, to just yesterday – the message from a father who lost his two-year old daughter when she was struck by a car as she ran after a ball.

My heart goes out to be eaved families and friends whose loved ones have been killed on the world's roads this year.

The Decade of Action for Road Safety gives governments - and all of us - a platform to put concrete measures in place to prevent this loss of life.

I am encouraged by the actions being taken.

Countries like India, Mexico and New Zealand are assessing the state of their roads; New Car Assessment Programmes are highlighting gaps in the safety of vehicles; campaigns to prevent drink-driving are on-going in Brazil, Cambodia and Vietnam, and to promote child car seats in the Russian Federation and motorcycle helmets in Yemen; and countries such as Mozambique, Romania and Thailand continue to improve their trauma care systems.

Despite progress, the WHO Global status report on road safety 2013 reminds us that much more is needed and that laws and their enforcement need to be strengthened everywhere if we are to have roads that are safe for all.

Let's continue to work together to achieve the Decade's goal of saving 5 million lives.

About the World Day of Remembrance for Road Traffic Victims

The World Day of Remembrance is observed on the third Sunday of November each year by an increasing number of governments and civil society organizations on every continent.

This Day is dedicated to remembering the millions killed or injured in road traffic crash each year and their families and communities. It also pays tribute to the dedicated emergency crews, Police and Medical professionals who daily deal with the traumatic aftermath of these events. Endorsed by the UN General assembly in 2005 as "the appropriate acknowledgment for victims of road traffic crashes and their families", resolutions to observe the Day were also adopted in 2011 by both the European parliament and the African Union.

In 2013, events have been registered in more than 50 countries, among others:

- Launches of awareness campaigns in Brazil, Cameroon, Croatia and Kenya;
- Seminars for the bereaved in Belgium;
- Memorial services including candle-Light vigils in Antigua and Barbuda, Australia, India, Japan, Lebanon, Lithuania and Uganda;
- Unveiling of memorials to road traffic victims in Slovenia and Togo;
- Remembrance walks or cycling tours in Canada, Nigeria, Turkey and the United Kingdom;
- Memorial concerns in Greece, Lithuania and the Philippines.

BICYCLE WEEK, 2013

The need to provide residents additional mode of transport that meet the needs of all ages and address both individual and national concerns gave rise to the campaign for planned bicycle transportation in Nigeria. Since inception in 2010, The Federal Road Safety Corps has continually engaged stakeholders at all levels through the inauguration of the National Stakeholders Committee in 2011.

The key aim was to evolve a holistic approach to an all-inclusive cycling advocacy that will culminate in residents cycling along the roads in Nigerian cities. Having made substantial progress in providing foundational issues that will advance the advocacy, the committee recommended for the annual hosting of a National Bicycle Week. The Week is designed to be the hallmark of cycling advocacy and public awareness each year. This recommendation received the approval of the Corps Marshal and Chief Executive, Federal Road Safety Corps culminated into the Maiden Edition of the National Bicycle Week was held from 18th to 24th November, 2013.

The week-long event had as its theme; "CYCLING FOR LIFE", the focus was to showcase the enormous benefits of cycling to the environment, health, social interaction, reduced traffic congestion, transportation cost and by implication, its benefits to life.

Corps Marshal and Senior FRSC Officers paying courtesy visit to Chief Ojo Maduekwe during the Bicycle week.

FRSC Staff and invited members of the public riding bicycle to create awareness during the Bicycle week.

Board Chairman of FRSC, Mr. Felix Chukwu granting audience to the Press during the Bicycle week.

Stakeholders from all works of life participated in the various activities undertaken to mark the event. Some of the stakeholders include;

- a. Cycling Federation of Nigeria
- b. Institute of Town Planners
- c. Standard Organisation of Nigeria
- d. Philipa Healthcare Foundation
- e. National Union of Road Transport Workers
- f. National Association of Road Transport Owners
- g. Federal Ministry of Culture and Tourism
- h. Federal Ministry Urban Development
- i. Federal Ministry of Environment
- j. Federal Ministry of Works
- k. Ministry of the Federal Capital Territory
- I. Federal Ministry of Transport
- m. Federal Ministry of Information
- n. National Orientation Agency
- o. Nigeria Building and Road Research Institute
- p. National Institute for Transport Technology
- q. Nigerian Society of Engineers
- r. National Universities Commission
- s. Nigerian Television Authority
- t. Federal Radio Corporation of Nigeria
- u. Africa Independent Television
- v. News Agency of Nigeria

- a. Compass Newspaper
- b. Daily Independent Newspaper
- c. Sun Newspaper
- d. Peoples Daily, etc.

Activities Carried out to mark the event include Cycling city rides, press briefing by the Corps Marshal and other stakeholders, workshop, advocacy visits, bike art displays, cycling mass rally and inauguration of the FRSC Cycling Club.

A show of dexterity by the Corps Marshal of FRSC and invited guests during the Bicycle to create public awareness of bicycle transportation in Nigeria.

FRSC HEADQUARTERS RELOCATION

FRSC was established in 1988 and had its Headquarters in Oshotokun, Ibadan in Oyo State. The Headquarters moved to Gbagada in Lagos State in 1989 and all operational and administrative activities of the Corps were coordinated from Lagos. With the movement of the nation's capital from Lagos State to the Federal Capital Territory (FCT), Abuja under the regime of Gen. Ibrahim Babangida (rtd), it became imperative to relocate the headquarters of FRSC to Abuja.

A symbolic walk by the Corps Marshal and Chief Executive and Senior of Management during the relocation of FRSC Headquarters from Wuse Zone 7 to Wuse Zone 3, Abuja.

In 1993 however, FRSC moved its headquarters from Gbagada, Lagos to the FCT. Due to limited office accommodation, Annexes of the Headquarters were procured at Wuse Zone 2. With increasing demand for work space, the headquarter annexes in Wuse Zone 2 was moved to Alexandria Crescent in Wuse II. Yet, additional annexes were provided for at Jabi in Utako district of the FCT.

Considering the administrative and logistical inconveniences occasioned by having the Corps Marshals office at Wuse Zone 7 and key Departments and Corps Offices in the HQ annexes in Wuse II and Jabi, it became necessary to co-locate the Headquarter and its annexes to ensure seamless administrative process.

History was made on 5 August, 2013 when the Corps Marshals' office and other key Departments at the Zone 7 office moved to join other Departments and Corps Office centrally located on 4 Maputo Street, Wuse Zone 7, Abuja. With this, FRSC now have one Corporate Headquarters

FRSC and Management Team relocates to new Headquarters building in Wuse Zone 3, Abuja.

A symbolic ceremony during the relocation of Corps Marshal to new Headquarters building in Wuse Zone 3, Abuja.

ISO 9001:2008 CERTIFICATION

Official ceremony to marks the Award of ISO 9001:2008 QMS certificate to FRSC by the Standards Organization of Nigeria (SON).

FRSC's decision to improve quality, ensure standards and subscribe to continuous process improvement is authenticated by a third party with a global seal. The award of the ISO 9001: 2008 Quality Management System Certificate to FRSC has elevated the Corps to the rarefied and elite group of Law enforcement Agencies and Public Institutions united in the search for excellence.

Amongst the Law Enforcement Agencies with this international certification, include the Phoenix Police department which was awarded the ISO 9001: 2000 certificate in 2003, and the Houston Police department, being the fifth largest Police department in the United States. In India, the State of Rajasthan, with a population of over 6 million people and 773 Police stations, has so far certified 41 Police stations in its bid to improve quality and create better policing.

Malaysia, at the National level in 1995 at the behest of the Prime Minister, Mahathir, embarked on the total certification of the Malaysian public service in line with ISO 9001 Quality Management System. And as at 2001, 249 of the Agencies had achieved certification.

The quest for excellence and need for standardization are the cornerstone of modern governance. The need for documented standards, processes and operating procedures and adherence to these documented processes are at the heart of governance. To elevate service delivery from the whims and caprices of government officials to the dictates of documented processes submitted for external evaluation is therefore, in line with democratic ethos of government.

In Rajasthan, India, since the adoption of ISO standards in their stations, First Information Report (FIR) registrations became time-bound, and time taken to reach crime scene reduced dramatically. In the same vein, 90% of the investigation is completed within the time limit, while retrieval of records improved dramatically.

In Malaysia, the Government's Transformation Programme (GTP), the equivalent of our own Transformation Agenda, decided to adopt independent third party verification. And in order to uphold the integrity of the verification processes, distinguished international experts were invited annually to sit on the GTP International Performance Review (IPR) Committee. In addition to the IPR Committee, an independent third party, PricewaterhouseCoopers (pwc) was engaged to perform an Agreed-Upon Processes (AUP) to ensure the authenticity and accuracy of the results.

One of the goals of Malaysian GTP is Assuring Quality Education. And to create a credible benchmark, the country participated in the Programme for International Students Assessment (PISA) organised by the Organisation for Economic Cooperation and Development. In the first assessment in 2009, it ranked in the bottom third in the 74 participating countries below both the international and OECD average, thus setting the national aspiration of improving the qualities of education along a credible baseline that can be measured as they strive to at least meet the international average. Again, third party verification provides benchmark for dedicated efforts.

Drawing from these global examples, we at FRSC resolved to benchmark ourselves with the current biggest 20 economies in the world as our contribution to realising our national vision 20:2020. To that end, we subjected ourselves to the World Bank Country Capacity Review; reviewed our position in the WHO ranking of countries by crash fatalities and decided to transform to a world class organisation built on **People**, **Processes** and **Technology (PPT)**.

Director-General, SON delivering ISO 9001:2008 QMS certificate to FRSC

A group photo of former FRSC Board Chairman (left), Corps Marshal of FRSC (middle) and DG, Standards Organization of Nigeria (right) during the delivery of ISO 9001:2008 QMS certificate.

The FRSC's adoption of the ISO 9001 certification Quality Management System started in 2008. As a follow up to this, our top management were trained in 2009, followed by the training of 80 officers as Internal System Auditors. Out of these, 68 were qualified and 60 are proceeding to become Lead Auditors.

The certification processes continued with other training and awareness programmes in all formations. Meanwhile, a total of 392 processes were identified in the Quality Manual developed in accordance with the Quality Policy.

In the course of implementation, the Corps secured the services of Sonates Investment Limited, a consulting firm that assisted with the Gap Analysis. Consequently, the Corps revalidated to the ISO 9001;2008 version with its introduction in Nigeria, and in order to have direct supervision, Quality Management System Unit was established in the office of the Corps Marshal and Chief Executive. We did this on our conviction that the adoption of the Quality Management System in the public service in Nigeria will go a long way in ensuring the quality of inputs and ultimately leading to positive outcomes.

That was why even in the face of the uncertainties, doubt and fear of the outcomes, we remained steadfast and sustained our commitment to the goal, guided by our ethics of whatever **we say**, **we do**. Evidently, therefore, despite the total non-conformities of 2796 we recorded at the first audit exercise in 2010, which increased to 3485 in 2011, representing 24.6% increase, we refused to succumb. Instead, we doubled our efforts and refocused our vision. The result was that, only 888 non-conformities were recorded in the 2012 exercise, which represented 74.5% decrease in non-conformities. It was a feat that could only be attained by dedication and commitment to the cause.

With this certification and the new status of FRSC today, the FRSC would no longer be the same. We have transformed the organization from power point reforms to institutional reengineering anchored on changing the rule books, documenting the changes and aligning them with our Scheme of Service and Regulations on Maintenance of Discipline. Our operations can no more be business as usual, and our parity with the best in the world should ginger us up to remain at the top.

In getting to this point, the Corps faced a myriad of challenges, among which were paucity of funds to finance the implementation of the QMS; problems of training the Auditors, provision of the infrastructure and other requirements of ISO Standards that are capital intensive. Moreover, there were problems of culture change, initial human resistance and had to grapple with the attitudes of those that believe in doing things the same way, but expecting different results.

In the face of these daunting challenges, however, the Corps refused to be overwhelmed. Our capacity to withstand the challenges and endure the pains made it possible to boldly announce, that FRSC remain the largest organization in Nigeria- by staff strength and national spread, with ISO 9001 certification.

ROAD CRASH STATISTICS

YEAR 2013 ROAD TRAFFIC CRASHES REPORT (EXECUTIVE SUMMARY)

OBSERVATIONS

A total of 13,583 Road Traffic Crashes (RTC) were recorded in year 2013. Out of this, 3,294 (34%) cases were fatal; 8,589 (63%) cases were serious while 1,700 (13%) were minor cases (See Table 1). This was arrived at after a validation exercise that include requesting for details from field Commands and harmonization with the CMRO data.

This resulted in 6,450 persons [4552 (70.6%) Adult Male, 1398 (21.7%) Adult Female, 299 (4.6%) Male Children while 201 (3.1%) Female Children] killed and 40,057 persons [28480 (71.1%) Male Adult, 9198 (23%) Female Adult, 1520 (3.8%) Male Children while 859 (2.1%) Male Children] were injured.

Hence, total casualty of 46,507 persons. 79744 people were involved, out of this 56876 (71.3%) were Male Adult, 18091 (22.7%) Female Adult, 2898 (3.6%) Male Children and 1879 (2.4%) Female Children.

RTC ANALYSIS ON STATE BASIS

FCT Abuja had the highest (1766) RTC cases followed by Nasarawa state (1158) and Kaduna state (1046). Kaduna state recorded the highest (303) fatal cases followed by FCT Abuja (259) and Nasarawa state (191) cases.

Yobe state recorded the highest severity index of 1.9 followed by Edo state with 1.12, this is closely followed by Oyo state with 1.10. Jigawa state recorded the least of 0.03; Adamawa and Ebonyi states also recorded 0.21 and 0.23 respectively.

RTC ANALYSIS ON ZONAL BASIS

Zone RS 7 (FCT Abuja) has the highest (2364) RTC cases followed by Zone RS 1 (Kaduna) with 2156 RTC cases and RS 4 (Jos) with 1958 cases. The highest fatal cases were recorded in Zone RS 1 (Kaduna) with 551 cases, followed by Zone RS 11 (Osogbo) with 442 cases, Zone RS 7 (FCT Abuja) with 395 cases and Zone RS 4 (Jos) with 389 cases.

Zone RS 11 (Osogbo) has the highest severity index of 0.83 followed by Zone RS 5 (Benin) with 0.68, Zone RS 12 (Bauchi) with 0.63 and Zone RS 1 (Kaduna) with 0.56.

VEHICLE INVOLVEMENT DISTRIBUTION

A total of 21199 vehicles were involved in RTC in year 2013. Out of this 7884 (37.2%) were cars, 4630 (21.8%) motorcycles, 3246 (15.3%) mini-buses and 1624 (7.7%) truck. Commercial vehicles recorded 11836 (55.8%) of vehicles involved in RTC in year 2013, Private 8999 (42.5%), Government 338 (1.6%) while Diplomat 26 (0.1%).

CAUSATIVE FACTORS

Speed Violation (SPV) was the most probable cause of RTC in year 2013. The record also showed that speed violation (SPV) accounted for 32% of identified probable causes of crashes. This was followed by Loss of Control (LOC) and Dangerous Driving (DGD) with 17.1% and 12.1% respectively.

COMPARATIVE ANALYSIS OF RTC IN YEAR 2013 OVER YEAR 2012

There were 8.1%, 1.9%, 1.5% and 1.6% reduction in RTCs, persons killed, persons injured and total

casualties respectively in crashes recorded in year 2013 over year 2012. (See Table 16) Kano state recorded the highest percentage change (50.6% increment) in RTC while the least

(83% reduction) was recorded by Abia state in year 2013 over year 2012 (See Fig. 26).

FINDINGS

- 1. The total RTC for year 2013 has dropped compared to year 2012 by 8.1%. That is, from 14783 cases in year 2012 to 13583 cases in year 2013. Number killed has also decreased marginally by 1.9%.
- 2. Fatal cases increased slightly by 1.6%.
- 3. Speed Violation (SPV) accounted for 32% of identified probable causes of crashes followed by Loss of Control (LOC) and Dangerous Driving (DGD) with 17.1% and 12.1% respectively.
- 4. State with high RTC also recorded high Speed Violation (SPV). For instance; FCT Abuja, Kaduna and Nasarawa states came 1st, 2nd and 3rd respectively with the highest Speed Violations as follows: FCT (647), Kaduna (677) and Nasarawa (596).
- 5. Interestingly, Bicycle recorded 89 RTC cases in year 2013.

RECOMMENDATIONS

Based on the findings and challenges encountered while collating data from field Commands the following recommendations are made:

- 1. Quarterly Auditing of Zonal RTC records by PRS Department to ensure accuracy, reliability and timeliness in reporting is hereby recommended. This will help to eliminate inconsistences and disc in data supplied by field Commands.
- 2. There is need for PRS to study or monitor the trend of Bicycles.
