Editor's Salute

THE SAFE TO LOAD PROJECT AND SPEED LIMITING DEVICE

Over the years, the Corps has made a remarkable stride in its mandate to reduce Road Traffic Crashes and fatality rate through various deliberate programmes and strategies. Some of these include, among others, the Safe to Load Project and the introduction of Speed Limiting Devices. Available records show that violation of the prescribed speed limit is one of the major causes that account for most of the recorded road crashes.

In line with its policy of consultation, the Corps Marshal and Management staff have met severally with stakeholders to create the necessary awareness and their buy-in to ensure these laudable programmes and initiatives record huge success.

This is more so that the EMBER months are here with us. Nigerians are very aware that this period usually records upsurge in vehicular traffic. What most motorists do not know however is that the period in itself does not cause road crashes. Factors such as human, mechanical and environment cause crashes. FRSC STATISTICAL DIGEST is therefore calling on Nigerian motorists to key into the Corps' programmes like the Safe To Load Project, Speed Limiting Devices and others to ensure a crash-free EMBER months as we traverse the length and breadth of the country to celebrate the yuletide with our families, relations and friends. Bon voyage!
